

Isha Arora
DESIGNS
PRODUCT CATALOGUE

I am Isha Arora, founder of Isha Arora designs. I would like to introduce Isha Arora Designs as an exquisite furniture & lifestyle brand established in 2020. All our products are tastefully designed & handcrafted with the best quality teak wood sourced ethically. We deliver the finest vintage high-end furniture that oozes opulence.

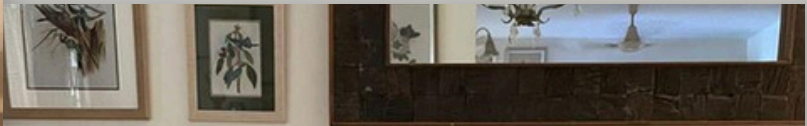

IAD is working with a vision to keep that timelessness of classic furniture while innovating and exploring various finishes and shapes and reinventing what classic truly stands for. Our bespoke designs are rare, so that home remains a piece of art, just as we believed it to be. Along with furniture pieces, we produce and source home decor products nationwide.

Over the past year, we have successfully completed multiple projects in different spaces, including homes and offices. Each project is carefully conceptualized to reflect English/Vintage aesthetics, considering each individual's personality and needs.

IAD is a brand born out of passion. It's driven by all things beautiful! I hope to bring together lots of creative people & energies and offer our best work across geographies.
